Safety Moment

Cougar Helicopters

Air Canada faces seatbelt, vehicle defect charges after death of Toronto baggage handler. Discussion around incident and what investigators found the airline in violation of the Canada Labour Code. Failure to remove defect vehicles and failure to install seatbeats or similar restraining devices. Following the death, labour officials directed the airline to install seatbelts on 950 ramp and baggage tractors and other motorized material handling equipment.

Reviewed Previous Minutes

Front seat by entry door of the S92 by aux tank

Session held on April 9, 2018 at Faulk to demonstrate egress from this seat with Cougar and CNLOPB present. Four (4) attempts completed, report being finalized and will be available in the next few days.

Code of Practice for Transportation by Helicopter

CNLOPB, Operators and CAPP, initial plan is to issue to NS then stakeholders/workforce June rollout.

Future Agenda items/ New Business

CNLOPB Safety Forum

Held on April 10-11th, approx. 85 people attended, very positive feedback. Both the Piper Alpha and Ocean Ranger presentations were well recieved. Most workforce reps were offshore therefore could not attend. Request for future speakers to be issued.

Helicopter Operations Safety Committee (HOSC)

Minutes Package

Extended flying day

JOSH to have senior operator rep to attend meetings offshore to provide update on extended flying day. OIM attended JOSH meeting on TBR, all in support of extended flight day. JOSH at HMDC still had same concerns as last year. SeaRose and HGR ok with progressing ahead on extended flight day. Worker engagement into extending the flight day continues to be a standing item discussed at HOSC.
