Safety Moment

ExxonMobil- Halloween safety

Reviewed Previous Minutes

- Charter update issued for signatures
- OHSI Recommendation #7
 - OSHI Rec 7&8 review
- AED- Cougar Helicopters was asked to look at possibility of having AED installed on aircrafts. Peter to provide update next meeting- Medevac coverage as per AOMS procedure, EMS would set-up, AOMS and SAR work together. CNLOPB -awareness and medical would suffice/screening. Agreed that AED would require further study/review and that it would be a HOSC agenda item. Operator HSE/logistics to update accordingly.
- Jettison of Windows
 - Discussion on amount of force required to pop out the S92 windows when submerged, thickness of glass, “Dynamic Elbow Strike”
 - Visit RelyOn Nutec to witness jettison of windows
- Code of Practice – Passenger Transfer by Helicopter
 - Charter has been reviewed, sent to CNLOPB/CNSOPB for review
 - Plan to have 2-day sessions going forward to increase efficiency
